Ken,

The Secretary asked that I forward along the following:

1. High level overview of potential areas of discussion (can be distributed at meeting if desired)
2. Same overview with some additional notes (not for distribution)
3. Map of ACP/gas transmission lines with counties and interstates/major highways and potential service gaps in red (this map does not show distribution lines, so these gaps are likely not as unserved as depicted, but gives an idea of potential areas of focus)
4. Letter outlining use of map data. Please note it is for internal government use only.

Please do not hesitate to let us know if you have questions or need additional details.

Thanks,
Susan
